Dear Southern California Citrus Growers and Interested Parties:

We have decided to postpone the Grower Educational Seminar scheduled for October 31st in Temecula due to the fire situation and aftermath. We will hold the same program in January at the same location. We believe that the growers in the area will be better served if they can re-group after one of the most devastating fire events in history. We ask that you keep all of the impacted growers and their families in your thoughts as they cope with the rebuilding efforts.

The date for the rescheduled seminar will be announced in the next few weeks once we have been able to contact all the speakers and arrange with the facility. We are planning to hold the meeting in January providing all the appropriate arrangements can be confirmed.

Thank you for your continued interest in the program and we appreciate your understanding for this necessary change.

Sincerely,

Ted Batkin
President
