

The Center for Applied
Horticultural Research

CfAHR-UCCE Annual Research Summary Meeting

Thursday, December 8th 2011
11:30AM to 2:30PM

CfAHR Conference Room
2372 Tamara Lane
San Marcos, CA 92069

Please join us for lunch and a summary of all research conducted at the Center by CfAHR and UCCE personnel during 2011 and a discussion of priorities and activities for 2012.

We will be discussing spider mites, European pepper moth, thrips resistance, Diaprepes root weevil, powdery mildew prevention and control, new products to increase cold tolerance, plant growth regulators and more!

You will have the opportunity to help us prioritize research for year 2012.
