

FREE! School Garden Showcase "Harvesting Lessons Learned"

Sat. November 9, 2013

10a.m. to 2p.m.

UCCE Master Gardener's Auditorium
2156 Sierra Way, San Luis Obispo, CA

Calling all school gardeners to come together to harvest lessons and ideas from one another about how to sustain gardening programs, volunteer teams, facilities, budgets and curriculum.

What works well at your school garden? Come showcase your achievements. Come harvest ideas from others. Come share your concerns and challenges. Come meet with others involved in the school garden movement to glean great ideas and inspiration.

What would work better in the future? Come be part of break out sessions on topics of interest to those of us involved in helping school gardens. We are each part of the solution in building the school garden movement here in San Luis Obispo County.
