

Introduction to Beekeeping

WORKSHOP SERIES

2 of 3

Workshop

2

Healthy Honey Bee Colonies & Hands-On Training

DESCRIPTION

The University of California Cooperative Extension in San Diego is excited to offer a workshop series on honey bees and beekeeping. This is the second workshop providing information and hands-on exercises on how to become a beekeeper. This series is perfect for those who have little or no beekeeping experience and would like to obtain more knowledge and practical skills to move on to the next step of owning and caring for their own honey bee colonies.

Participants will have the opportunity to learn about and practice many aspects of what is necessary to get the colony started and keep it healthy and thriving. At the end of the series participants will be knowledgeable about installing honey bee packages, monitoring their own colonies and possible challenges with maintaining a healthy colony.

PRESENTERS

Elina L. Niño, Ph.D., Apiculture Research and Extension Specialist | UC Division of ANR

Bernardo Niño | E.L. Niño Lab-UC Davis

Shannon Mueller, Ph.D. | UC Cooperative Extension

James Bethke, County Director, Nursery & Floriculture Farm Advisor, UC Cooperative Extension

Jaime Garza, Agricultural Standards Inspector
Department of Agriculture, Weights & Measures

TOPICS COVERED

- **Hive monitoring & Inspection**
- **Honey bee nutrition**
- **Identification, monitoring & control of: nosema, varroa mites, & small hive beetle**
- **Pesticide issues related to honey bees**
