

UC ANR Urban Agriculture Workshop Series

“Food Safety Basics for Urban Farmers”

Friday May 4, 2018

8:45 a.m. – 4 p.m.

Schoolhouse at Soil Born Farms
2140 Chase Drive, Rancho Cordova, CA

This workshop will guide urban growers through common food safety principles and challenges. We'll cover California laws related to community food producers and food safety. Learn how to develop a Food Safety Plan, and how to assess and minimize the risk of contamination on the farm, including discussion of water sources, rainwater catchment, animal husbandry, wildlife intrusion, and use of manure and compost. Sanitation, post-harvest handling and worker health and hygiene will also be covered.

In cooperation with local partners:

**Cost: \$20 for a full day of speakers,
networking, lunch and refreshments!**

**Pre-registration is required & space
is limited. Register now:
ucanr.edu/sacurbanag2018**

Are you an urban farmer growing food for sale or other distribution in your community?

This special one-day workshop is designed to guide urban farmers through common food safety principles and challenges. Participants will learn:

- California laws related to community food producers and food safety;
- How to develop a Food Safety Plan;
- How to assess and minimize risk of contamination on the farm, including discussion of water sources, rainwater catchment, animal husbandry, wildlife intrusion and use of manure and compost;
- Sanitation and post-harvest handling;
- Worker health and hygiene.

The cost is \$20, which includes a resource packet, refreshments, and lunch. Pre-registration is required. Space is limited, so reserve your spot now!

Register now at <http://ucanr.edu/sacurbanag2018>

This is the fourth in a series of four Sacramento County workshops that will be held on 3/16, 4/6, 4/14, and 5/4, covering additional urban agriculture topics.
