## Changes Adopted

This section documents the changes adopted at the PSE Site or Organization. This includes the undertaking of a new or modified policy (a change to the system or environment) that heightens the appeal of healthy food and beverages. It can also involve expanding access to or promoting physical activity as well as a reduction in the amount of time spent sedentary.

### To Add Changes

1. Click  .
2. Go through the list of predetermined options and select the change that was documented as a result of the PSE work done at this site by clicking  . If you have more than one change to document go through this process for each change you need to attach to the PSE site activity.
3. After choosing the changes adopted you will also need to determine the number of people who were reached by these initiatives. You can use several methods including measured reach, estimated, reach and unknown. If you are unsure which method is best for your situation you can review our documentation on [calculating reach](#). Bear in mind that you should be considering the reach for ALL changes adopted in the current reporting year at this site or organization. Click  to finalize the entry or  to navigate to the "Individual Effectiveness" section.
