Would you like lots of meal options? Let UC Master Food Preservers show you ideas to preserve that abundance of tomatoes and make dinner planning a breeze. Are the kids clamoring for pizza; how about your own pizza sauce? What about taco night? Add your own taco sauce to the meal. Need a quick appetizer? What about tomato salsa and veggies or chips? An Master Food Preserver favorite is basic crushed or chopped tomatoes to use in family casserole dishes. Run out of tomato paste or tomato sauce? Use your own tomato powder and save yourself a trip to the grocery store. You can even make a quick tomato soup for lunch.
