CropManage is a **free** online decision-support tool for *water and nutrient management* of vegetables, berries, agronomic, and tree crops. Based on research and field studies conducted by the University of California Cooperative Extension, CropManage provides real-time recommendations for efficient and timely irrigation and fertilization applications while maintaining or improving overall yield. CropManage is also available in **Spanish**.

**Who should participate?** Growers, farm managers, other farm staff, crop advisors, consultants, and technical service providers are welcome. The workshop is for both new and current CropManage users. **Spanish** translation will be available. **Lunch** will be provided.

**Important--What to bring?** This is a participatory workshop.

- Please bring a **tablet** or **laptop** so that you can follow along and participate in the exercises.
- Each participant will need a user account for CropManage.
- Please set up a **free user account** at <https://cropmanage.ucanr.edu/> before the workshop. Please arrive early to set up your laptop or tablet computer on the wifi and get logged on to CropManage.
